THE GOAL

Improve efficiency to increase traffic volume and quality

Envoy media aimed to drive more qualified leads through their site by expanding targeting while maintaining campaign efficiencies

THE SOLUTION

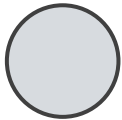

Harness the power of infused tools to drive efficiency

Envoy Media began by testing automated bidding on their smaller accounts and to their delight were able to confirm the backend metrics supported that they were generating more qualified leads. From there it was a no brainer to then rollout automated bidding across all Microsoft Advertising accounts then scale reach by leveraging other products like Multimedia Ads
